THREAT PROTECTION
Information Management

Scenario 1:
You are in a contract dispute with one of your suppliers. You need to locate an amendment to the original contract that was agreed via email.

Scenario 2:
IT is spending too much time running eDiscovery searches and placing data on legal hold. You want to remove the eDiscovery burden from IT.

Scenario 3:
Rogue employee sends confidential price list to the competition and then immediately deletes from Sent Items.
Enterprise Vault.cloud
Store, manage and discover business critical information in the cloud.

Enterprise-strength cloud archiving
Litigation-ready eDiscovery
Archiving beyond email
Built for Microsoft
Built for Microsoft Office 365
Works seamlessly, offers advanced archiving and eDiscovery

Enable compliance.

Archive multiple platforms and other content.

Leverage advanced, self-service search and eDiscovery capabilities.

Find and restore email fast.

Better Together Office 365 & Symantec

Real-Time Link Following

Better Together Office 365 & Symantec
Information Protection – Scenario 1
Employees regularly take IP outside the company and never clean it up

One-third move work files to file sharing apps without permission

2 out of 5 download work files to personally owned tablet or smartphone
Information Protection – Scenario 2
Most employees think it’s okay to use competitive data taken from a previous employer

Future employers become unwitting recipients of stolen IP

Half of employees who left/lost their jobs kept confidential information

40% plan to use it in their new job

56% of employees do not believe it is a crime to use a competitor’s trade secrets
Information Protection – Scenario 3
Employees don’t think their organizations care

Half say no action is taken when employees take sensitive information against policy

68% say their company does not take steps to ensure employees do not use competitive info
