

First Availability (FA) Program Update

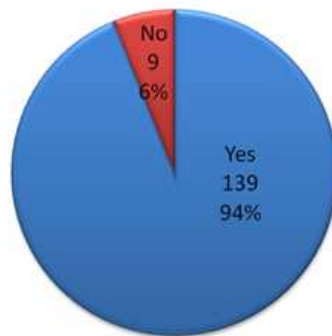

The NetBackup 7.6 First Availability Program launched in October 2013.

It has been a success, with more than 900 customers signing up, and over 150 reported installations.

Customer feedback is overwhelmingly positive on the focus we have placed on quality.

Based your experience with
NetBackup 7.6 FA would you
recommend NetBackup 7.6 to other
customers?

NetBackup Appliances

- The Symantec NetBackup™ 5230 Appliance in a new 14 TB configuration with NetBackup 7.5 embedded will be available in early December.
- Appliances are expected to ship with NetBackup 7.6 on a USB stick in the beginning of 2014, which will enable customers to perform upgrades.

NetBackup 7.6 and Appliance 2.6 releases are targeted for Q4' 2013.
