```

```
[root@japhet log]# systemctl status vxpbx_exchanged.service
● vxpbx_exchanged.service
   Loaded: not-found (Reason: No such file or directory)
   Active: inactive (dead)
[root@japhet log]# █
```

```
[root@japhet log]# chkconfig --list

Note: This output shows SysV services only and does not include native
systemd services. SysV configuration data might be overridden by native
systemd configuration.

If you want to list systemd services use 'systemctl list-unit-files'.
To see services enabled on particular target use
'systemctl list-dependencies [target]'.
