Help

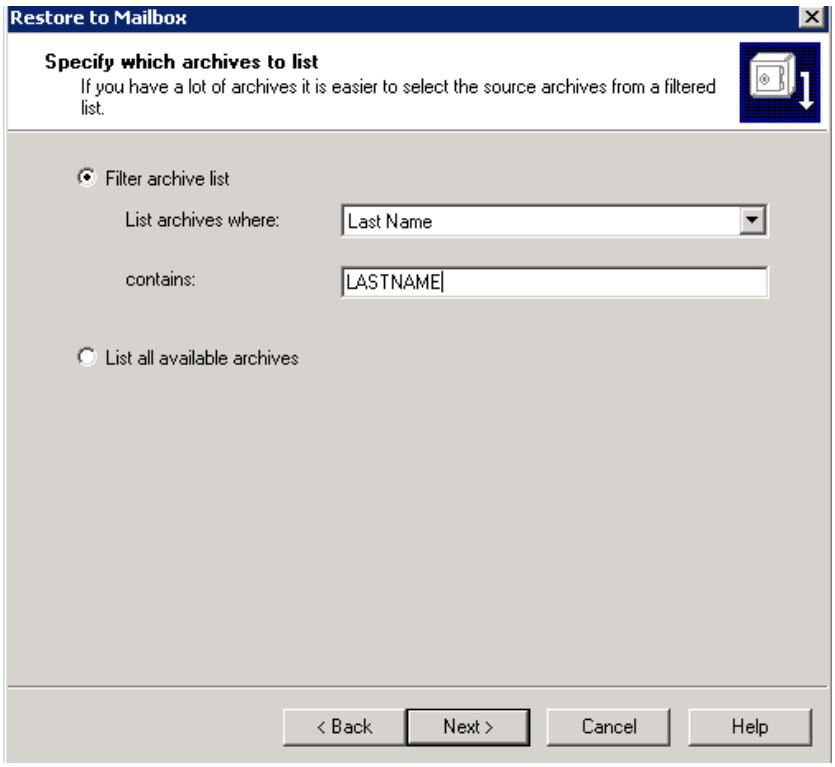
Step 3



Restore to Mailbox
Specify which archives to list
If you have a lot of archives it is easier to select the source archives from a filtered list.
Filter archive list
List archives where:
Last Name
contains:
LASTNAME
List all available archives

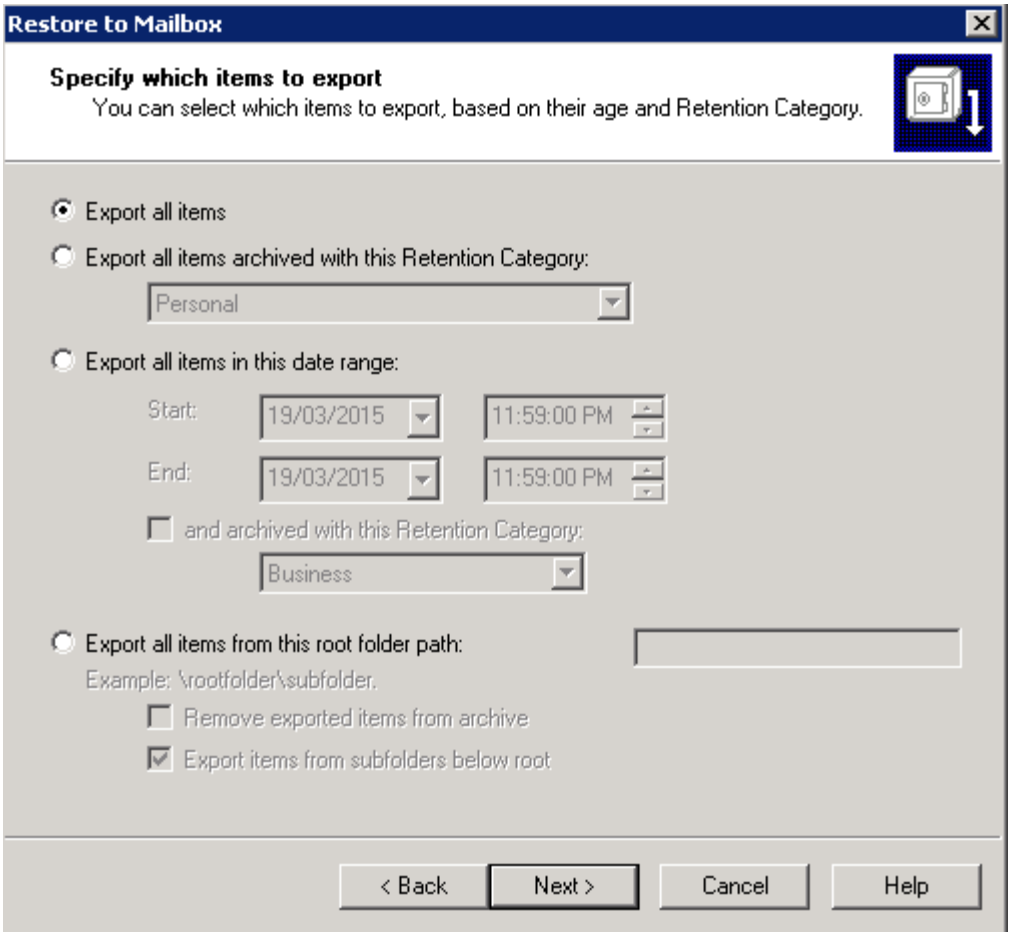
Step 5



Restore to Mailbox
Specify which items to export
You can select which items to export, based on their age and Retention Category.
Export all items
Export all items archived with this Retention Category:
Personal
Export all items in this date range:
Start:
19/03/2015
11:59:00 PM
End:
19/03/2015
11:59:00 PM
and archived with this Retention Category:
Business
Export all items from this root folder path:
Example: \rootfolder\subfolder.
Remove exported items from archive
Export items from subfolders below root
